

Issue #443: Kaiming sentence-final width

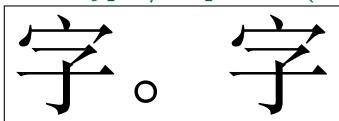

Current xeCJK: 2026/07/13 v3.10.3 Typesetting CJK scripts with XeLaTeX

Current master (0.8em)

A rectangular box containing the Chinese characters '字' followed by a period '。' and another '字'. The characters are rendered in a serif font. The box is used to illustrate the current master font's handling of sentence-final punctuation width.

Current punctuation contribution: 32.0pt

Prototype / expected (1.0em)

A rectangular box containing the Chinese characters '字' followed by a period '。' and another '字'. The characters are rendered in a serif font. The box is used to illustrate the prototype or expected font's handling of sentence-final punctuation width.

Prototype punctuation contribution: 40.0pt
